### CEILING POSTERS DUE FOR RETURN

Ceiling price posters, used by housewives as shopping guides for three years, will again be used under the extended OPA act, W. E. Holcomb, District Director, said today.

New food price lists for stores in Mississippi are now being prepared, Major Holcomb said, adding that all community food price lists in effect June 30 have been revoked.

"Many of the foods included on these community price lists are now decontrolled others must be granted mandatory increases, and removal of subsidies has made other price changes necessary," he explained.

Butter, meats, poultry, eggs and cheese will not be on the new price lists, since these foods are now decontrolled. If controls on them are reinstated, they will then make their reappearance on the ceiling price posters, OPA said.

### USED CAR CEILING DOWN

Ceiling prices for all used cars are now eight percent less than they were at the end of 1945, the District Director of the Office of Price Administration said today.

This is the result of two separate reductions of four percent each, which are made automatically every six months because of depreciation in value, OPA explained. One reduction took effect last January 1 and the second, originally scheduled for July 1, automatically became effective with renewal of the Price Control Act.

All deliveries of new and used cars made after July 25 must be at or below OPA ceiling, OPA said, even though an agreement to buy at a higher price may have been made and a deposit paid during the interim when no price controls were in effect.

### RAIL INCREASE UPS COAL COST

Buyers of coal for domestic use will pay six to eight cents more per ton as a result of an increase in railway freight rates July 1, OPA District Director said today.

Since coal is sold on an f. o. b. mine basis, all coal dealers who have to pay railroad freight for their supplies have been authorized to add the exact freight rate increase to their ceiling price, Mr. Holcomb said.

### SLAUGHTER QUOTAS STILL UNLIMITED

Quotas governing the amount of livestock that may be slaughtered under Control Order 2 in non-federally-inspected plants will continue on an unlimited basis until further notice, the Office of Price Administration said today.

Unrestricted slaughter of cattle, calves and hogs by licensed Class 2 slaughterers will continue until OPA establishes new quotas. The agency said, however, that no action will be taken before August 21, the date on which the newly established Decontrol Board will announce its decision regarding decontrols of meat and meat products.

The price agency emphasized that the other provisions of Control Order 2—such as licenses, meat marking, reporting requirements—will remain in effect. This means that newcomers may not enter the slaughtering business unless they meet the specific requirements set forth in the control order.

Reports are still required and the reporting provisions of the order must be observed, OPA said. OPA lifted quotas on July 10, following an action of the Department of Agriculture which removed quotas from federally-inspected plants.

Quotas previously in effect for non-federally-inspected slaughterers had been fixed at 85 percent of the amount killed in the same period of 1944, while the limit of hogs was set at 90 percent.

OPA authority to continue its slaughter control program is the Second War Powers Act.

### Mrs. Andrew Allison Will Leave Bay St. Louis Aug. 19 on Way To China

Mrs. Andrew Allison will leave Bay St. Louis on August 19 for San Francisco, California, from which place she will sail for China on August 28. Mrs. Allison will join Rev. Mr. Allison there and she will resume her missionary work. Mr. Allison sailed for China several months ago but Mrs. Allison could not go at that time.

The ship on which Mrs. Allison will sail will be of solid personnel with 400 missionaries as a vanguard for the 8000 who will sail from the United States later for Korea and China.

Mrs. Allison was honored at a tea last week given by Mrs. J. A. Evans at her home. A love gift in the form of a free will offering was given Mrs. Allison to use in her work in China.

On Thursday she was the guest speaker at the Womens Missionary Union at the Baptist church at which time an offering was made to Mrs. Allison for her own personal use.

The Allison's have been missionaries to China for thirty-three years and were interned in a prison camp by the Japs for seven months and came to the states aboard the Gripsholm three years ago. They will not return to the states again as it is their wish that they spend their last days in China. They have a son and daughter living in the United States whom they will likely not see again.

The love and prayers of the people of Bay St. Louis go with them both in their work.

### Law Enforcement Group To Meet

Many things of importance will be discussed at the meeting of the Law Enforcement Association Monday night, August 12 at 7:30 at the Court-house. It is planned to elect new officers. The public is cordially invited.

The speaker will be Miss Vashti Ishee of the State Department of Education whose special field is the study of the effects of alcohol and other narcotics.

Since public opinion is made up of private opinions, a great responsibility is placed on the individual to inform himself on matters pertaining to the public good and then act on that information. The day has passed when a citizen can leave to others the running of affairs which have an effect upon himself and his family. All over the citizens who claim the privileges of this free country are realizing that they must accept in return certain responsibilities.

The citizens of Bay St. Louis and Hancock County are urged to be present at the meeting Monday night at the Courthouse.

### Workshop In Health Education

This week has been no exception to the very interesting programs offered each morning, and which are open to the public at the assembly period at Bay High during the Workshop in Health Education going into its sixth week of the session.

On Tuesday morning Dr. Robert E. Rothel, director Public Health for the county of Harrison, Dr. Rothel demonstrated the portable iron lung which was a great opportunity for those attending the workshop. Dr. Rothel also talked on the precaution that should be taken toward the prevention of the spread of Polio.

On Wednesday Rev. P. E. Bierce addressed the group on The Body—God's Temple. As special music Mrs. Francis Wilson gave Ave Maria a violin solo.

Mrs. Marvin Amos, county elementary School supervisor of Harrison County was a special guest.

The program for this week is under the direction of Mrs. Curtis of Biloxi.

"The Christian Message is the only message she said and the years ahead of Reconstruction and rehabilitation is the greatest opportunity for Christian Service."

The "job" situation, the housing problem, the rebuilding of the interrupted home, all these that face the returning man are ours to solve. The American home is on trial today and it must be made a greater institution than ever, the speaker said. Peace she continued will not come out of insecurity and instability. Missionaries are needed, ministers are needed and in great numbers for the work is the work of Christian service.

Mrs. Bragg is president of the womens division of Christian Service of the Methodist Churches of America and abroad. She has served several years in this capacity and is recognized as an outstanding and capable leader. She and Mr. Bragg spent a few days here this week at Gulfside School of Missions at Waveland.

## BROTHER PETER RETURNS TO STANISLAUS

THE news of the appointment of Brother Peter as President of St. Stanislaus was received by the people of Bay St. Louis with much satisfaction, and we feel certain that he received it with as much pleasure as we did.

Bay St. Louis and St. Stanislaus have become home to Brother Peter. He has spent 27 of the last 38 years in Bay St. Louis. Coming here for the first time in 1908 he remained until 1910. He was reassigned to Stanislaus in 1913 and spent 19 years as teacher, prefect, vice president and president. In 1932 he was named head of Catholic High at Baton Rouge and in 1938 he was again named President of Stanislaus for a term of six years. In 1944 he returned to Baton Rouge and this year his Superiors saw fit to again name him head of the school which he has worked so hard to bring to the forefront.

That he has succeeded in making Stanislaus one of the outstanding schools for boys in the South is best attested by the number of students in attendance and by the number of applications for enrollment that are turned down each year. Parents are anxious to have their boys come under his care and guidance. They feel that it is a privilege for their boys to be able to attend Stanislaus. Brother Peter is a leader of boys. He knows them in and out. He gains their confidence. Learns their shortcomings, if they have any, and helps them to correct their faults. The honor system is his method if it can be made to work and if not, he has other very good methods, which are very effective and seldom fail.

Brother Peter has meant much to Bay St. Louis. He is known throughout the South and many other sections of the country as a great educator. He is a great believer in the athletic development of boys, and through his efforts the teams of Stanislaus have gained a reputation that has redounded to the benefit of Bay St. Louis.

When the Editor of this paper was a little red headed, freckled faced youngster, he had the privilege of having Brother Peter as his teacher, and we know what he can and will do, if he must. It has been our privilege to have three of our sons complete their high school education under his guidance, and we hope that the other four will have the same opportunity.

We say to you Brother Peter, the people of Bay St. Louis are indeed happy to have you back, and we join with your many friends and admirers in wishing you a real welcome. May God bless you and guide you in your work.

## THE "FLEET" AT TRIESTE

THE strength of the U. S. Navy in the Mediterranean is two destroyers, but we believe that the "fleet" has been concentrated at Trieste.

The rivalry of Yugoslavia and Italy over this port has resulted in an international tug of war that carries certain dangerous possibilities. The fact that Russia has backed the claim of Yugoslavia makes the problem more serious. Undoubtedly, the Yugoslavian forces in the area far outnumber those of the United States, and Great Britain, which, it seems to us, make an explosive situation.

The fact that the United States has dispatched cruisers into the harbor of Trieste is what the diplomats would call a "demonstration of strength." It tends to emphasize the interest of this country in the peaceable settlement of the Trieste question but, in our opinion, the nation should immediately dispatch additional warships into the Mediterranean in order to let Russia know very clearly that we are interested in any attempt to settle war questions in that area by force.

## WILL PRICES GO UP?

THERE is hardly any way to tell how the new price control legislation will work out but unless it manages to wipe out some of the increases that have occurred in basic raw materials the price of living will soon reflect an upward jump.

It is natural for every seller to believe that the higher price he can get for his product the bigger his profit will be. Subject to adjustment that inevitably follow, the statement is partially correct. Nevertheless, sellers are also buyers and the increases that occur generally will equalize the temporary gain and in the end, nobody will be better off but the price level will be higher.

Political campaigns seldom produce a candidate who knows that he is not going to be elected.

Money in the bank, or in postal savings, is much better than cash in a tin can or an old sock.

Make your contribution, in time or money, to the life of the community without expecting others to match what you do.

Business profits, during the past few years, just accumulated; to make profits in the next few years may test the ability of executives.

Every owner of property should maintain it in a way to add to the attractiveness of the area in which it is located. Besides, the process pays dividends.

When you get so busy that you cannot take time off for rest and recreation, you are too busy. Never forget that the world will turn on its axis when you pass on.

## Veterans' News

Jackson — Insurance benefits to veterans were materially extended when the President, signed the liberalized GI insurance bill Kenneth M. Conner, Regional Insurance Officer, said today.

Discussing the amendments to the National Service Life Insurance Act which recently became law, Mr. Conner said, GI insurance benefits are now in line with those of commercial insurance companies at a great saving to the veteran.

"As originally enacted, National Service Life Insurance was designed to meet the needs of men and women at war," Mr. Conner explained. "The new amendments provide for liberalization to make it more attractive in peace time."

Principal changes in the amended act, Mr. Conner said, include:

1. Lump sum payments to beneficiaries if desired.
2. Total disability protection upon payment of a slight additional premium.
3. Entitlement of all persons who served in the armed forces between October 8, 1940 and September 2, 1945, to apply for National Service policies or to increase the amount of policies already in force.
4. More endowment types of policies offered.
5. Removal of many restrictions in the naming of beneficiaries.

"Holders of about six million NSLI policies now in force are eligible for the many new benefits provided by these amendments," Mr. Conner pointed out.

"In addition, those veterans who formerly held some ten million policies that have elapsed may still be entitled to reinstate them and take advantage of the low cost protection provided for their families by GI insurance."

Some of the details provided by the new amendments follow.

The only method of settlement previously provided was monthly income or annuity payments. These forms are still available. In addition, the amendments provide an option under which the insured may have his insurance paid in a single lump sum to beneficiaries, or he may elect for payments to be made in

equal monthly installments ranging from 36 to 240 months.

A new feature added by the amendments is the payment of benefits to an insured veteran who is totally disabled and such disability has existed for at least six consecutive months.

These payments are at the rate of \$5 a month for each \$1,000 of insurance and are payable for as long as the disability exists. The insurance itself is not affected by the payments so that beneficiaries receive the full face value of the policy upon the death of the insured.

The new total disability feature may be added to any form of NSLI, including term insurance, if the insured meets specified health requirements and pays the extra premium.

All persons who served in the armed forces between October 8, 1940 and September 2, 1945 are entitled to apply for the new NSLI. The total amount may not exceed \$10,000.

The application may be filed at any time and will be granted upon proof that the veteran meets the required health standards. This is a definite change from the previous provision which limited all veterans to the amount of insurance they had while in service.

Applications for insurance which were rejected solely for health reasons between October 8, 1940 and September 2, 1945, are evaluated by the new amendments in cases where the applicants were killed or totally disabled in line of duty while in service. This amendment will provide income for beneficiaries who receive no insurance payments under the old law.

Original permanent policies provided in NSLI were ordinary life, 20-payment life and 30-payment life.

Under the amendments, new additional types of policies available to veterans are 20-year endowment policies, endowment at age of 60 and endowment at age 65.

On all of these endowment policies.

## National Guard Plans

Notice has been received that the National Guard of Mississippi will be issued approximately 1300 motor vehicles of all types in the near future. Plans are now being perfected for the storage of these vehicles and equipment at Camp Shelby for the National Guard, which later will be issued to the Units of the Guard as they are organized throughout the State.

The State has requested rifle range facilities at various points in State to be used by Units of the National Guard for week-end firing. Localities in the State where former National Guard Units were located and those now having State Guard Units, as well as any others which can provide armory facilities, should contact the office of the Adjutant General of Mississippi by letter requesting establishment of a National Guard Unit as it is anticipated that the Mississippi National Guard will be reactivated in the near future.

## Pediatrician to Lecture

Dr. Jerome Weaver will conduct postgraduate pediatric courses in Mississippi during the entire month of August, announced Dr. C. M. Shipp, Hancock County Health Officer. These courses and demonstrations for physicians will be held at accessible points throughout the state. In Hancock County these conferences and demonstrations will be held at Kings Daughters Hospital, on August 13 at 2:30 P. M.

Dr. Weaver is pediatric resident of Charity Hospital, New Orleans, La., and is also on the faculty of Tulane Medical School, where he is now conducting a postgraduate course in pediatrics for physicians. During the war Dr. Weaver was a lieutenant colonel in the Army Air Medical Corps.

All physicians in Hancock County are cordially invited to attend these courses.

the premiums must be paid for the indicated length of time, at the expiration of which the face of the policy may be paid to the veteran.

Veterans who have converted their term insurance to one of the previously authorized plans are permitted to change to one of the endowment plans, if they wish.

Those veterans now holding term insurance policies need feel no compulsion to make an immediate change as term policies issued before January 1, 1946, may be continued for eight years from date of issue.

All restrictions on the choice of beneficiaries which were imposed by the original act have been removed. Formerly the insured was permitted only to designate beneficiaries who were near relatives. He may now designate any person or persons, a corporation or his estate as beneficiary in his insurance policy.

Further information concerning National Service Life Insurance can be obtained at the nearest Veterans Administration Office.

### Applications for U. S. Naval Reserve Officers For Transfer to Regular Navy

New Orleans, Aug. 2—Dead line for applications of U. S. Naval Reserve officers for transfer to the regular Navy has been established for September 15 1946, Eighth Naval District Headquarters has announced.

Naval Reserve and temporary USN officer, including officers on active duty terminal leave and those eligible who are on inactive duty, who desire transfer to the regular Navy, must submit their applications on or before the deadline. Applications received at district headquarters on or before September 15 will be processed through the local board of review and forwarded to the Navy's Bureau of Personnel for action.

The deadline does not apply to officers who request transfer to the regular Navy as law specialists, officers who will have completed less than one year's commissioned service on September 15 and officers who receive their first commission after September 15, the Navy said.

Officers who are applying for transfer to the regular Navy as Chief Warrant or Warrant Officers are not included in this category since the deadline for such applications was previously set at July 20, 1946.

Applicants who are now on inactive duty or terminal leave should address correspondence to Commandant, Eighth Naval District, Federal Building, New Orleans, 12, La., Navy officials said.

## A. & G. THEATER SUNDAY - MONDAY "DEVOTION"

Starring Ida Lupino, Paul Henreid, Olivia de Havilland and Sydney Greenstreet

The story of Strange Sisters—one didn't dare admit her love—the other dared everything is "Devotion," the Warner Brothers' film to show Sunday and Monday at the A. & G. Theater.

The romantic tale of the Bronte sisters who, though they apparently led sheltered lives, were able to write such emotional love novels as "Jane Eyre" and "Wuthering Heights." The film depicts their trials with a

drunken brother whom they mistakenly believe to be a genius, and their deep friendship with the village curate to whom they confine their dreams and aspirations.

Started in the picture are Ida Lupino, Paul Henreid, Olivia de Havilland and Sydney Greenstreet, with Nancy Coleman, Arthur Kennedy, Dame Mary Whitty and Victor Francen.

The picture was directed by Curtis Bernhardt; screen play by Keith Winter. The original story was by Theodore Reeves and the music by Frick Wolfgang Korngold.

### Over Two Million Fish Released in State During Past Twelve Months

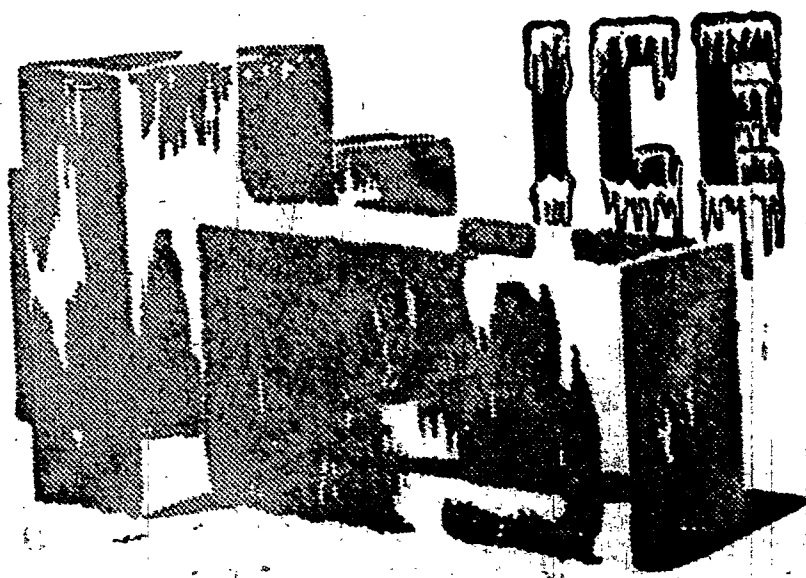

According to R. M. Freeman, Director of the Mississippi Game and Fish Commission, the Commission has released over 2,000,000 fish in the state during the past twelve months. In addition to restocking public waters, tens of thousands of fish were delivered from federal hatcheries to 1226 farm ponds and lakes during the period. ### Reveal Results of Recent State-Wide Survey On Teacher Situation

Jackson, Miss., August 8—J. M. Tubb, Superintendent of Education, reveals the results of a recent state-wide survey on the teacher situation in Mississippi. The lack of well-trained, qualified teachers continues to rank as a Number One problem in the educational affairs of our state.

Twenty six hundred white teachers earned college credit during the summer toward removing deficiencies. In spite of this gain, over four thousand white and four thousand Negro teachers, remain in the sub-standard list. There are now 1292 vacancies in the white schools of Mississippi. Among the vacancies in the high schools the number ranges from 128 vacancies for English teachers to 13 for foreign languages; 107 in mathematics; 109 in natural science; 89 in music; and 85 in home economics.

Mr. Tubb states that the schools are suffering from the unsettled social and economic conditions prevailing at the present time. This situation will very likely necessitate the insurance of emergency licenses for the 1946-47 school session. The Accrediting Commissions may be compelled to relax on professional regulations in order to keep the school rooms open. This condition demands the patience and perseverance of all of our citizens in order that this problem may be worked out as equitably as possible.

## IT'S A FACT

That when there were 75 millionaires in the United States, 12 of them lived at Natchez, Mississippi. Ante-bellum Natchez was the banking and business center for a large part of the cotton empire. Many of the homes now shown annually during the Natchez pilgrimages were erected at a cost which today would be prohibitive.

## AND IT'S ALSO A FACT

The brewing industry maintains a fully staffed organization in Mississippi to make certain its products are sold under proper conditions, and to see that those handling its products comply fully with the laws and regulations governing the sale and distribution of beer. The industry's policy of shutting off the supply of beer to retail outlets that do not adhere to community sentiment has been in force for more than six years and will continue in effect as long as the sale of beer is legal in Mississippi.
